May Fun Days (Highlighted on Menu)

May 5: Cinco De Mayo!

Cinco de Mayo, or the fifth of May, commemorates the Mexican army's 1862 victory over France at the Battle of Puebla during the Franco-Mexican War. It is a relatively minor holiday in Mexico but in the United States it has evolved into a celebration of Mexican culture and heritage which include parades, mariachi music and street festivals. Mexican style entrees such as quesadillas, nachos and taco twins continue to be popular choices with our customers! Lunch on Cinco De Mayo will feature taco twins served with corn, refried beans and a churro!

May 28: National Hamburger Day!

The concept of today's hamburger originated during the 12th century by the Mongols of China led by Genghis Kahn. The Mongols would place beef under their saddles where trotting of the horse would mince the meat as the heat of the horse cooked it. Beef provided the warriors with protein and eliminated the need to stop on long journeys.

In 1921, White Castle began the mass distribution of the fast food hamburger with a tiny hamburger sold for 5 cents! Holes were later added to the patty to speed up cooking times and eliminate the need for flipping.

Nutrition Intuition

In 1987, Registered Dietitian Karen Fynan built a company based on the principles of *Nutrition & Service* naming her company **Nutri-Serve Food Management** to reflect these beliefs. Nutrition has always been at the forefront of menu planning with the goal of creating a serving line that teaches our customers about healthy meals. We believe our exponential growth to 83 districts over the last 25+ years is a result of our commitment to serve tasty and healthy meals to our customers.

Nutri-Serve's Corporate Dietitian, Kristen Mueller, RD, works collaboratively with our leadership team to plan our monthly menus and provides nutrition support and education to students, athletes & school staff.

I've got some EGG-CELLENT food safety tips!

FRUIT OF THE MONTH Strawberries

Silly Strawberries!

What did one strawberry say to the other?
 If you weren't so fresh, we wouldn't be in a jam.

Berry Popular Fruit

- Over 53 percent of seven to nine year olds picked strawberries as their favorite fruit.

Seedy Strawberries

- Strawberries are the only fruits with seeds on the outside.
- One strawberry can have more than 200 seeds on it!

Strawberries = Springtime

- Strawberries are the first fruit to ripen in Spring.

Strawberries Spike Your Calorie Burn

- Strawberries contain nitrates which promote calorie burn. One study found that those who ate strawberries prior to a workout burned 100 calories more doing the same workout.
- Eating nitrate-rich strawberries can increase the flow of blood & oxygen to the muscles by 7%. preventing muscle fatigue, making exercise easier.

VEGGIE OF THE MONTH Kale

Go Crazy For Kale!

- "Every leaf of kale you chew adds another stem to your tree of life".
Ancient Turkish Saying
 (NationalKaleDay.org)
- This leafy green is nutrition packed!

Clever Kale

Make Kale a part of your studying routine... why?

- Sulforaphane**— Improve learning and memory.
- Folates**— Promote brain cell health
- Omega-3-fatty acids (ALA)**- Lowers risk of depression and helps decrease anxiety.

The Tale of Kale

- Kale has some Jersey Roots—There is an extremely tall variety of kale called "Jersey kale" or "cow cabbage".

Kale is Cool!

- Kale continues to produce into late winter.
- A frost actually makes kale taste sweeter.

Balloons for a Balanced Lunch

Our nutrition education involves the healthy marketing of our serving line. To teach the concept of balance to our elementary-aged customers we use the concept of **Balloons for a Balanced Lunch**. Each balloon represents a different food group.

Blue is milk, Red is fruits, Green is vegetables, Yellow is grain, Purple is protein.

A lunch tray with every color balloon is a healthy one!
